DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claims 1-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As per claim 1, it is unclear how a device comprises a forum and a module. The Examiner suggests changing "device" to - - system - - to overcome this deficiency. Also, in claim 1, after each occurrence of the term "module", the term "able" renders the claim vague indefinite noting that the various claimed functions relating to the respective modules are not being performed by the various modules.

The Examiner suggests changing the various recited found language of:

"able to receive" to - - receiving - -.

Claims not specifically addressed are rejected based on their dependencies.

Allowable Subject Matter

2. The prior art of record failed to teach or suggest separating the specific contact information and the general information and maintaining a database of accurate contact management statistics for reporting to a team of financial service professionals as recited in independent claims 1 and 11.

Claims 1-12 are allowable over the art of record.
